1 Find the definition of this measurement Mean	**a** The most commonly occurring number in a set of numbers
	b The average of a set of numbers
	c The middle number of a set of numbers when ranked in order
	d The distance between the highest and lowest of a set of numbers

2 Find the definition of this measurement Range	**a** The distance between the highest and lowest of a set of numbers
	b The middle number of a set of numbers when ranked in order
	c The average of a set of numbers
	d The most commonly occurring number in a set of numbers

3 Find the definition of this measurement Median	**a** The distance between the highest and lowest of a set of numbers
	b The most commonly occurring number in a set of numbers
	c The average of a set of numbers
	d The middle number of a set of numbers when ranked in order

4 Find the definition of this measurement Mode	**a** The average of a set of numbers
	b The middle number of a set of numbers when ranked in order
	c The most commonly occurring number in a set of numbers
	d The distance between the highest and lowest of a set of numbers
