Algebraic Functions - Variable Substitution to Equation - Fractional

What does this equation become when x=3, z=6

What does this equation become when r=2, d=6

2z

Terms

2d

3

What does this equation become when r=8, b=2

4

2

2n

What does this equation become when n=8, c=2

2c

5 5z

What does this equation become when z=6, p=3

6

8

What does this equation become when d=6, z=3

7

2d

What does this equation become when d=8. z=4

В 2 - 8 + 4 - 4

What does this equation become when b=7, r=2
