1 Find the total number of blocks

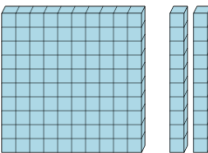

a	three hundred and twenty
b	two hundred and fifty
c	one thousand four hundred and three
d	ten
e	one hundred and ten
f	four hundred and twenty

2 Find the total number of blocks

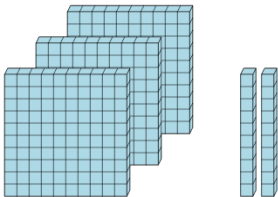

a	two hundred and twenty
b	seven hundred and thirty
c	four thousand six hundred and thirty
d	three hundred and twenty
e	six hundred and thirty
f	three hundred and ten

3 Find the total number of blocks

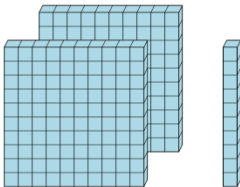

a	one hundred and twenty
b	four hundred and thirty
c	one hundred and ten
d	four thousand four hundred
e	five thousand one hundred and twenty
f	five hundred and twelve

4 Find the total number of blocks

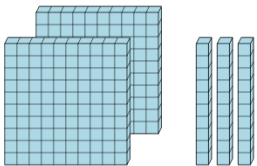

a	two hundred and thirty
b	two hundred and twenty
c	six hundred and forty-three
d	three thousand two hundred and thirty
e	three hundred and twenty
f	three thousand seven hundred and twenty

5 Find the total number of blocks

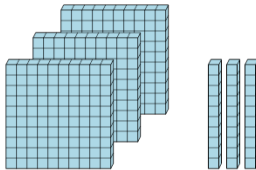

a	two thousand and fifty
b	one hundred and twenty
c	forty-one
d	five thousand three hundred and ten
e	two hundred and ten
f	two hundred and twenty

6 Find the total number of blocks

a	one thousand one hundred and twenty
b	two hundred and thirty
c	one thousand three hundred and seventy
d	two hundred and sixty
e	two thousand two hundred and ten
f	six hundred and twenty-four

7 Find the total number of blocks

a	ten
b	seven hundred and forty-five
c	five hundred and twenty
d	seven hundred and twenty
e	three hundred and thirty
f	five hundred
