1 Find the total number of blocks

- a one thousand two hundred and thirty-one
- b four thousand five hundred and fifty-two
- c two thousand and thirteen
- d three thousand one hundred and forty
- e one hundred and eleven
- f two thousand five hundred and one

2 Find the total number of blocks

- a three thousand and forty-two
- b three thousand four hundred and seventeen
- c two thousand one hundred and forty-one
- d one thousand three hundred and thirteen
- e three thousand five hundred and fifty-one
- f two thousand one hundred and eleven

3 Find the total number of blocks

- a twenty
- b three thousand one hundred and thirty-one
- c four thousand two hundred and five
- d one thousand three hundred and fifty-one
- e two thousand three hundred and eleven
- f one thousand one hundred and twenty-

4 Find the total number of blocks

- a one thousand one hundred and fifty-eight
- b one thousand and seventeen
- c one thousand three hundred and fourteen
- d four thousand three hundred and one
- e three thousand one hundred and thirty
- f one thousand two hundred and forty-five

5 Find the total number of blocks

- a two thousand four hundred and thirty-two
- b three thousand six hundred and twenty-five
- c one thousand two hundred and fourteen
- d one thousand one hundred and fifteen
- e three thousand three hundred and fifty-three
- f three thousand five hundred and ten

6 Find the total number of blocks

- a five thousand seven hundred and forty-four
- b five thousand three hundred and eighteen
- c three thousand seven hundred and forty-seven
- d two thousand five hundred and forty
- e four thousand six hundred and sixteen
- f one thousand three hundred and fourteen

7 Find the total number of blocks

- a one thousand five hundred and twenty-three
- b four thousand and twenty
- c one thousand three hundred and twelve
- d two thousand six hundred and thirty
- e two thousand six hundred and thirty-five
- f one thousand seven hundred and thirty-four
