

Math worksheet on 'Digit Solving - Ones Digit in Multiplication Product - Is It Possible (Level 1)'. Part of a broader unit on 'Digits and Divisibility - Intro'

Learn online: app.mobius.academy/math/units/digits_and_divisibility_intro/

1

$$\begin{array}{r} \boxed{A} \boxed{B} \boxed{C} \\ \times \quad \boxed{D} \boxed{2} \\ \hline \boxed{F} \boxed{G} \boxed{H} \boxed{?} \end{array}$$

Each letter is a digit (0-9). Is the digit '3' possible in the box with a question mark?

a	b
Yes	No

2

$$\begin{array}{r} \quad \quad \boxed{A} \boxed{3} \\ \times \quad \boxed{C} \boxed{D} \boxed{E} \\ \hline \boxed{F} \boxed{G} \boxed{H} \boxed{?} \end{array}$$

Each letter is a digit (0-9). Is the digit '3' possible in the box with a question mark?

a	b
Yes	No

3

$$\begin{array}{r} \boxed{A} \boxed{B} \boxed{2} \\ \times \quad \boxed{D} \boxed{E} \\ \hline \boxed{F} \boxed{G} \boxed{H} \boxed{?} \end{array}$$

Each letter is a digit (0-9). Is the digit '5' possible in the box with a question mark?

a	b
Yes	No

4

$$\begin{array}{r} \boxed{A} \boxed{B} \boxed{5} \\ \times \quad \boxed{D} \boxed{E} \\ \hline \boxed{F} \boxed{G} \boxed{H} \boxed{?} \end{array}$$

Each letter is a digit (0-9). Is the digit '5' possible in the box with a question mark?

a	b
Yes	No

5

$$\begin{array}{r} \quad \quad \boxed{A} \boxed{0} \\ \times \quad \boxed{C} \boxed{D} \\ \hline \boxed{E} \boxed{F} \boxed{G} \boxed{?} \end{array}$$

Each letter is a digit (0-9). Is the digit '0' possible in the box with a question mark?

a	b
Yes	No

6

$$\begin{array}{r} \quad \quad \boxed{A} \boxed{B} \\ \times \quad \boxed{C} \boxed{9} \\ \hline \boxed{E} \boxed{F} \boxed{?} \end{array}$$

Each letter is a digit (0-9). Is the digit '3' possible in the box with a question mark?

a	b
Yes	No

7

$$\begin{array}{r} \boxed{A} \boxed{B} \boxed{1} \\ \times \quad \boxed{D} \boxed{E} \\ \hline \boxed{F} \boxed{G} \boxed{H} \boxed{?} \end{array}$$

Each letter is a digit (0-9). Is the digit '8' possible in the box with a question mark?

a	b
Yes	No
