## **Exponents Concept Intro - Picture to Words - Exponents to Three**

1	What phrase is equal to the number of blocks in the 9 wide by 9 long by 9 high cube?	A 9	B 9 squared	2	What phrase is equal to the number of blocks in the 12 wide by 12 long square?	A 12 squared	B 12 cubed
		C 9 cubed				12	
3	What phrase is equal to the number of blocks in the 11 long row?	A 11	B 11 cubed	4	What phrase is equal to the number of blocks in the 2 wide by 2 long by 2 high cube?	A 2 squared	B 2 cubed
		C 11 squared				C 2	
5	What phrase is equal to the number of blocks in the 12 wide by 12 long	A 12 cubed	B 12 squared	6	What phrase is equal to the number of blocks in the 7 wide by 7 long by 7 high cube?	A 7 squared	В 7
	square?	C 12				C 7 cubed	
_	What phrase is equal to	A	В		What phrase is equal to	A	В
7	What phrase is equal to the number of blocks in the 8 wide by 8 long square?	8 squared	8 cubed	8	What phrase is equal to the number of blocks in the 12 long row?	12 squared	12 cubed
		C 8				12
