

Math worksheet on 'Fact Family - Sin/Cos/Tan - Fact to Triangle (Level 1)'. Part of a broader unit on 'Trigonometry Fundamentals - Practice'

Learn online: app.mobius.academy/math/units/trigonometry_fundamentals_practice/

1

What fact family triangle would give this trigonometry fact?

$$\cos \cdot \text{hyp} = \text{adj}$$

a

b

2

What fact family triangle would give this trigonometry fact?

$$\text{hyp} = \frac{\text{opp}}{\sin}$$

a

b

3

What fact family triangle would give this trigonometry fact?

$$\text{adj} = \frac{\text{opp}}{\tan}$$

a

b

4

What fact family triangle would give this trigonometry fact?

$$\tan \cdot \text{adj} = \text{opp}$$

a

b

5

What fact family triangle would give this trigonometry fact?

$$\text{hyp} \cdot \sin = \text{opp}$$

a

b

6

What fact family triangle would give this trigonometry fact?

$$\sin = \frac{\text{opp}}{\text{hyp}}$$

a

b

7

What fact family triangle would give this trigonometry fact?

$$\sin \cdot \text{hyp} = \text{opp}$$

a

b
