

Math worksheet on 'Fraction Division As Fraction - Whole by Improper - Don't Simplify (Level 2)'. Part of a broader unit on 'Fraction Division - Practice'

Learn online: app.mobius.academy/math/units/fractions_division_practice/

1 Divide these fractions (don't simplify the answer)

$\frac{5}{5}$	$\frac{5}{6}$	$\frac{6}{5}$
$\frac{(3)}{(\frac{5}{2})}$	$\frac{15}{2}$	5

2 Divide these fractions (don't simplify the answer)

$\frac{(4)}{(\frac{8}{5})}$	$\frac{32}{5}$	$\frac{9}{8}$	$\frac{20}{8}$
	9	$\frac{9}{9}$	

3 Divide these fractions (don't simplify the answer)

$\frac{(4)}{(\frac{8}{3})}$	$\frac{12}{8}$	$\frac{7}{9}$	7
	$\frac{32}{3}$	$\frac{7}{8}$	

4 Divide these fractions (don't simplify the answer)

$\frac{(2)}{(\frac{8}{4})}$	$\frac{6}{8}$	$\frac{8}{8}$	$\frac{16}{4}$
	$\frac{6}{9}$	6	

5 Divide these fractions (don't simplify the answer)

$\frac{(4)}{(\frac{9}{4})}$	$\frac{36}{4}$	8	$\frac{16}{9}$
	$\frac{8}{10}$	$\frac{8}{9}$	

6 Divide these fractions (don't simplify the answer)

$\frac{(3)}{(\frac{9}{8})}$	$\frac{11}{9}$	$\frac{27}{8}$	$\frac{11}{10}$
	11	$\frac{24}{9}$	

7 Divide these fractions (don't simplify the answer)

$\frac{(3)}{(\frac{9}{3})}$	6	$\frac{6}{10}$	$\frac{9}{9}$
	$\frac{6}{9}$	$\frac{27}{3}$
