# mobius

Math worksheet on *'Fraction Subtraction - Missing Value (Simple) - One Changed Denominator (Level 1)'*. Part of a broader unit on *'Fraction Addition and Subtraction - Intro'*

Learn online:

**1** Find the fraction that makes this equation correct

$$\underline{\quad} - \frac{1}{6} = \frac{1}{6}$$

| a | b | c | d | e | f |
|---|---|---|---|---|---|
| $\frac{1}{36}$ | $1$ | $\frac{2}{5}$ | $\frac{1}{3}$ | $\frac{3}{4}$ | $\frac{1}{2}$ |

**2** Find the fraction that makes this equation correct

$$\underline{\quad} - \frac{1}{9} = \frac{2}{9}$$

| a | b | c | d | e | f |
|---|---|---|---|---|---|
| $\frac{2}{13}$ | $\frac{2}{81}$ | $\frac{1}{27}$ | $\frac{3}{10}$ | $\frac{1}{3}$ | $\frac{5}{9}$ |

**3** Find the fraction that makes this equation correct

$$\frac{1}{2} - \underline{\quad} = \frac{1}{4}$$

| a | b | c | d | e | f |
|---|---|---|---|---|---|
| $\frac{1}{8}$ | $\frac{3}{5}$ | $\frac{1}{4}$ | $\frac{3}{4}$ | $\frac{1}{2}$ | $1\frac{1}{4}$ |

**4** Find the fraction that makes this equation correct

$$\frac{1}{3} - \underline{\quad} = \frac{1}{6}$$

| a | b | c | d | e | f |
|---|---|---|---|---|---|
| $\frac{4}{5}$ | $\frac{1}{3}$ | $\frac{4}{7}$ | $\frac{2}{3}$ | $\frac{1}{6}$ | $\frac{1}{9}$ |

**5** Find the fraction that makes this equation correct

$$\underline{\quad} - \frac{1}{10} = \frac{1}{10}$$

| a | b | c | d | e | f |
|---|---|---|---|---|---|
| $\frac{1}{5}$ | $1$ | $\frac{2}{5}$ | $\frac{1}{10}$ | $\frac{5}{11}$ | $\frac{1}{100}$ |

**6** Find the fraction that makes this equation correct

$$\underline{\quad} - \frac{1}{21} = \frac{2}{21}$$

| a | b | c | d | e | f |
|---|---|---|---|---|---|
| $\frac{4}{21}$ | $0$ | $\frac{2}{441}$ | $\frac{1}{147}$ | $\frac{3}{10}$ | $\frac{1}{7}$ |

**7** Find the fraction that makes this equation correct

$$\frac{1}{3} - \underline{\quad} = \frac{2}{9}$$

| a | b | c | d | e | f |
|---|---|---|---|---|---|
| $\frac{2}{3}$ | $\frac{1}{2}$ | $\frac{3}{11}$ | $1$ | $\frac{1}{9}$ | $\frac{4}{9}$ |
