

Math worksheet on 'Fractions - Equivalent, Find Fraction - 1 digit with Equation Graphic (Level 3)'. Part of a broader unit on 'Fraction Comparing - Intro'

Learn online: [app.mobius.academy/math/units/fractions\\_comparing\\_intro/](https://app.mobius.academy/math/units/fractions_comparing_intro/)

1

$$\frac{2}{3} = \frac{\text{?}}{\text{?}}$$

x5      ?

**a**  $\frac{10}{15}$     **b**  $\frac{1}{3}$

Find the equivalent fraction

2

$$\frac{2}{3} = \frac{\text{?}}{\text{?}}$$

x4      ?

?      x4

**a**  $\frac{1}{2}$     **b**  $\frac{8}{12}$

Find the equivalent fraction

3

$$\frac{2}{5} = \frac{\text{?}}{\text{?}}$$

x4      ?

?      x4

**a**  $\frac{8}{20}$     **b**  $\frac{1}{5}$

Find the equivalent fraction

4

$$\frac{2}{3} = \frac{\text{?}}{\text{?}}$$

x3      ?

?      x3

**a**  $\frac{6}{9}$     **b**  $\frac{1}{2}$

Find the equivalent fraction

5

$$\frac{4}{6} = \frac{\text{?}}{\text{?}}$$

x4      ?

?      x4

**a**  $\frac{1}{8}$     **b**  $\frac{16}{24}$

Find the equivalent fraction

6

$$\frac{2}{4} = \frac{\text{?}}{\text{?}}$$

x5      ?

?      x5

**a**  $\frac{2}{5}$     **b**  $\frac{10}{20}$

Find the equivalent fraction

7

$$\frac{5}{6} = \frac{\text{?}}{\text{?}}$$

x4      ?

?      x4

**a**  $\frac{20}{24}$     **b**  $\frac{1}{5}$

Find the equivalent fraction
