

Math worksheet on 'Negative Integer Addition and Subtraction - Intro (Level 1)'. Part of a broader unit on 'Negative Integers - Intro'

Learn online: app.mobius.academy/math/units/negative_integers_intro/

- 1** Subtracting a negative is the same as adding a positive. The first number is negative, so you are adding a positive to a negative.

$$-1 - -1 = ?$$

a	b	c	d	e	f
0	4	-1	-2	2	1

- 2** Subtracting a negative is the same as adding a positive. The first number is negative, so you are adding a positive to a negative.

$$-2 - -2 = ?$$

a	b	c	d	e	f
4	0	-2	1	-4	2

- 3** Subtracting a negative is the same as adding a positive. The first number is also positive, so this results in an even bigger positive.

$$4 - -4 = ?$$

a	b	c	d	e	f
0	-7	-10	7	0	8

- 4** Subtracting a positive from a negative results in the an even bigger negative

$$-3 - 4 = ?$$

a	b	c	d	e	f
-7	-5	-1	1	-2	2

- 5** Adding a positive to a negative results in the difference between the two values but with the sign of the larger one

$$-1 + 1 = ?$$

a	b	c	d	e	f
1	0	-3	-2	3	2

- 6** Adding a positive to a negative results in the difference between the two values but with the sign of the larger one

$$-4 + 4 = ?$$

a	b	c	d	e	f
-1	-2	3	0	1	2

- 7** Subtracting a negative is the same as adding a positive. The first number is negative, so you are adding a positive to a negative.

$$-3 - -4 = ?$$

a	b	c	d	e	f
-7	7	0	1	-2	2
