

Math worksheet on 'Order of Operations Example - Add, Subtract (Level 1)'. Part of a broader unit on 'Order of Operations - Practice'

Learn online: app.mobius.academy/math/units/order_of_operations_practice/

1

Which operation should be done first in this equation?

$$5 - 7 + 3 = ?$$

a

$$5 - 7$$

b

$$7 + 3$$

2

Which operation should be done first in this equation?

$$8 - 5 + 6 = ?$$

a

$$8 - 5$$

b

$$5 + 6$$

3

Which operation should be done first in this equation?

$$4 - 7 + 6 = ?$$

a

$$7 + 6$$

b

$$4 - 7$$

4

Which operation should be done first in this equation?

$$5 + 7 - 3 = ?$$

a

$$7 - 3$$

b

$$5 + 7$$

5

Which operation should be done first in this equation?

$$3 + 4 - 5 = ?$$

a

$$3 + 4$$

b

$$4 - 5$$

6

Which operation should be done first in this equation?

$$7 - 2 + 6 = ?$$

a

$$7 - 2$$

b

$$2 + 6$$

7

Which operation should be done first in this equation?

$$8 - 6 + 3 = ?$$

a

$$8 - 6$$

b

$$6 + 3$$
