

Math worksheet on 'Order of Operations - Ordering From Words - All Operations (Level 1)'. Part of a broader unit on 'Order of Operations - Practice'

Learn online: [app.mobius.academy/math/units/order\\_of\\_operations\\_practice/](http://app.mobius.academy/math/units/order_of_operations_practice/)

**1**

Which operation should you do first in a math equation?

Multiply or Exponents

<b>a</b>	Exponents
<b>b</b>	Multiply
<b>c</b>	Left-To-Right

**2**

Which operation should you do first in a math equation?

Add or Exponents

<b>a</b>	Exponents	<b>b</b>	Add
<b>c</b>	Left-To-Right		

**3**

Which operation should you do first in a math equation?

Exponents or Subtract

<b>a</b>	Left-To-Right
<b>b</b>	Subtract
<b>c</b>	Exponents

**4**

Which operation should you do first in a math equation?

Exponents or Brackets

<b>a</b>	Brackets
<b>b</b>	Exponents
<b>c</b>	Left-To-Right

**5**

Which operation should you do first in a math equation?

Exponents or Add

<b>a</b>	Left-To-Right	<b>b</b>	Add
<b>c</b>	Exponents		

**6**

Which operation should you do first in a math equation?

Exponents or Multiply

<b>a</b>	Multiply
<b>b</b>	Exponents
<b>c</b>	Left-To-Right

**7**

Which operation should you do first in a math equation?

Brackets or Multiply

<b>a</b>	Left-To-Right
<b>b</b>	Multiply
<b>c</b>	Brackets
