

Math worksheet on 'Ratios - Calculate Total Ratio from Values (From Image) (Level 1)'. Part of a broader unit on 'Rates and Ratios - Intro'

Learn online: app.mobius.academy/math/units/rates_and_ratios_intro/

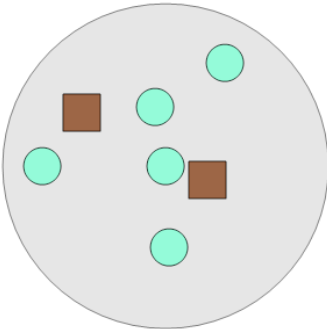

1 What is the (simplest) ratio of squares to all shapes?

a	b	c
5:14	2:5	8:7
d		
1:11		

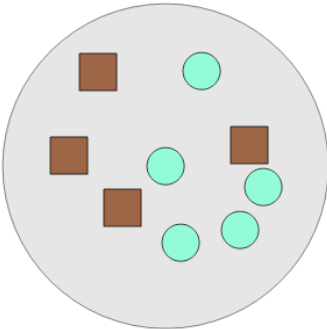

2 What is the (simplest) ratio of squares to all shapes?

a	b	c
9:3	1:16	1:5
d		
2:7		

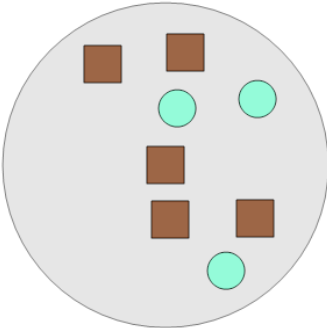

3 What is the (simplest) ratio of squares to all shapes?

a	b	c
5:1	4:9	13:8
d		
5:15		

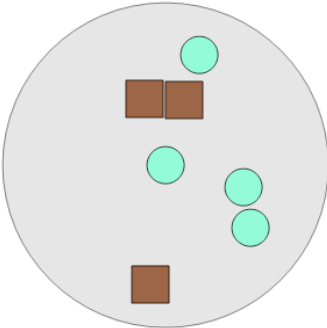

4 What is the (simplest) ratio of circles to all shapes?

a	b	c
7:10	4:12	5:9
d		
3:8		

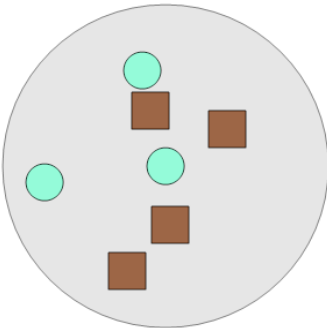

5 What is the (simplest) ratio of circles to all shapes?

a	b	c
4:7	2:15	1:11
d		
3:10		

6 What is the (simplest) ratio of circles to all shapes?

a	b	c
7:2	6:6	3:7
d		
1:12		

7 What is the (simplest) ratio of squares to all shapes?

a	b	c
3:1	1:10	11:9
d		
4:7
