**1**

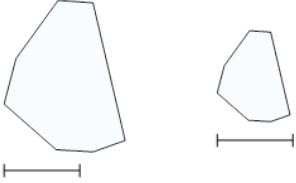

What is the most accurate description of these shapes?

<b>a</b>	All angles and side lengths are identical
<b>b</b>	One or more angles are different

**2**

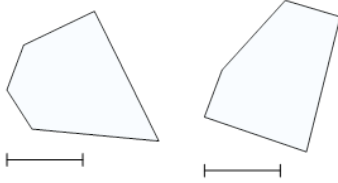

What is the most accurate description of these shapes?

<b>a</b>	All angles are identical
<b>b</b>	One or more angles are different

**3**

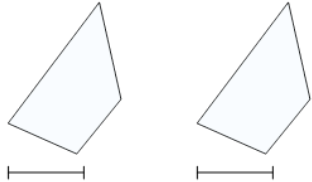

What is the most accurate description of these shapes?

<b>a</b>	One or more angles are different
<b>b</b>	All angles and side lengths are identical

**4**

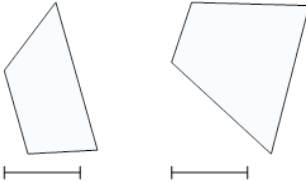

What is the most accurate description of these shapes?

<b>a</b>	All angles and side lengths are identical
<b>b</b>	One or more angles are different

**5**

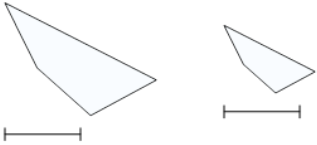

What is the most accurate description of these shapes?

<b>a</b>	One or more angles are different
<b>b</b>	All angles are identical

**6**

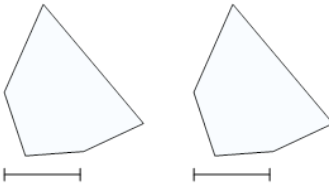

What is the most accurate description of these shapes?

<b>a</b>	All angles are identical
<b>b</b>	One or more angles are different

**7**

What is the most accurate description of these shapes?

<b>a</b>	All angles and side lengths are identical
<b>b</b>	One or more angles are different
