1

What is the best property to describe these shapes?

- | | |
|----------|-------------------------------|
| a | neither similar nor congruent |
| b | congruent |

2

What is the best property to describe these shapes?

- | | |
|----------|-------------------------------|
| a | neither similar nor congruent |
| b | similar |

3

What is the best property to describe these shapes?

- | | | | |
|----------|---------|----------|-----------|
| a | similar | b | congruent |
|----------|---------|----------|-----------|

4

What is the best property to describe these shapes?

- | | |
|----------|-------------------------------|
| a | congruent |
| b | neither similar nor congruent |

5

What is the best property to describe these shapes?

- | | |
|----------|-------------------------------|
| a | neither similar nor congruent |
| b | similar |

6

What is the best property to describe these shapes?

- | | |
|----------|-------------------------------|
| a | neither similar nor congruent |
| b | congruent |

7

What is the best property to describe these shapes?

- | | |
|----------|-------------------------------|
| a | similar |
| b | neither similar nor congruent |
