

Math worksheet on 'Parts of a Circle (Advanced) - First Time (Level 1)'. Part of a broader unit on 'Geometry - Intermediate - Intro'

Learn online: [app.mobius.academy/math/units/geometry\\_intermediate\\_intro/](http://app.mobius.academy/math/units/geometry_intermediate_intro/)

1

In geometry the position in the middle that is the same distance from all points on the edge is called what?

a

center

b

centrifugal

2

In geometry a line from edge to edge that goes through the center is called what?

a

drafty

b

diameter

3

In geometry a line that touches the outer edge of the circle without crossing it is called what?

a

tangent

b

toblerone

4

In geometry a line from the center to the edge is called what?

a

radius

b

radical

5

In geometry a line that touches the outer edge of the circle without crossing it is called what?

a

torus

b

tangent

6

In geometry a portion of the outer edge of the circle is called what?

a

amethyst

b

arc

7

In geometry a line from edge to edge that does not go through the center is called what?

a

celestial

b

chord
