

Math worksheet on 'Parts of a Circle (Advanced) - First Time (Level 1)'. Part of a broader unit on 'Geometry - Intermediate - Intro'

Learn online: app.mobius.academy/math/units/geometry_intermediate_intro/

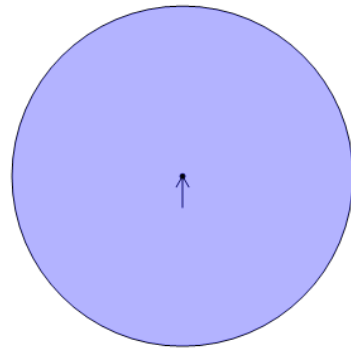

2

In geometry a line from the center to the edge is called what?

a	b
rheumatoid	radius

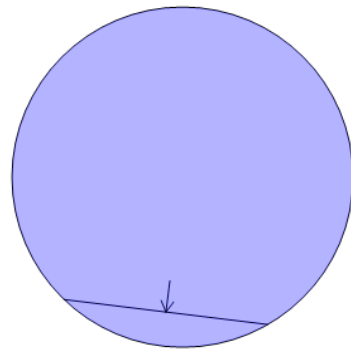

1

In geometry the position in the middle that is the same distance from all points on the edge is called what?

a	b
center	centrifugal

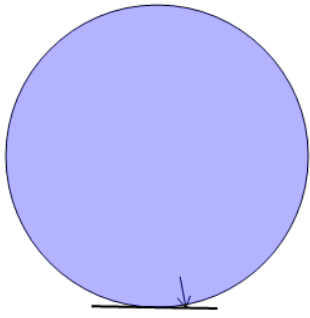

3

In geometry a line from edge to edge that does not go through the center is called what?

a	b
centrifugal	chord

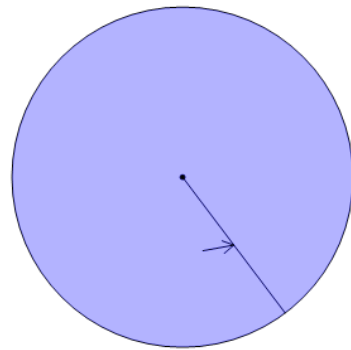

4

In geometry a line that touches the outer edge of the circle without crossing it is called what?

a	b
torus	tangent

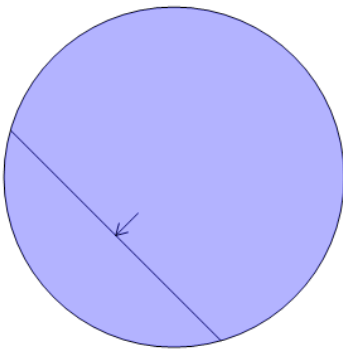

5

In geometry a line from the center to the edge is called what?

a	b
roving	radius

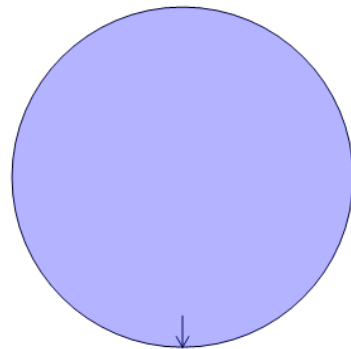

6

In geometry a line from edge to edge that does not go through the center is called what?

a	b
celestial	chord

7

In geometry the outer edge of the circle is called what?

a	centrifugal
b	circumference
