

mobius

Parts of a Circle (Advanced)

Name the part of the circle identified by the arrow	^A arc	Name the part of the circle identified by the	A circumference
	B radius	arrow	B tangent
	C center		^C chord
	D segment		D sector
	E circumference		E center
	F chord		F segment
Name the part of the circle identified by the	A segment	A Name the part of the circle identified by the	A sector
arrow	B diameter	arrow	B segment
	C circumference		C circumference
	D center	<u> </u>	D chord
	E radius		E radius
	F arc		F diameter
Name the part of the circle identified by the arrow	A B sector radius	Name the part of the circle identified by the arrow	A B segment center
	c D chord arc		C D tangent arc
	E f tangent center		E F chord
7 Name the part of the circle identified by the	A center	Name the part of the circle identified by the	A circumference
arrow	B arc	arrow	B sector
	C chord		c tangent
	D circumference	<u></u>	D diameter
	E sector		E radius
	F radius		F center
