

Math worksheet on '*Parts of a Circle (Advanced) - True/False (Level 1)*'. Part of a broader unit on '*Geometry - Intermediate - Intro*'

Learn online: app.mobius.academy/math/units/geometry_intermediate_intro/

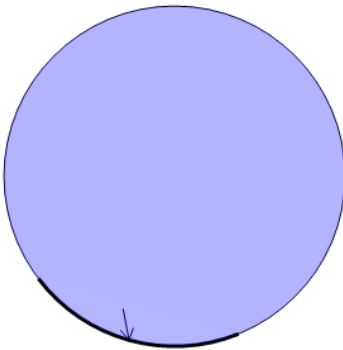

2

Is the part of the circle identified by the arrow a 'chord' (a line from edge to edge that does not go through the center)?

a	It is a chord
b	It is not a chord

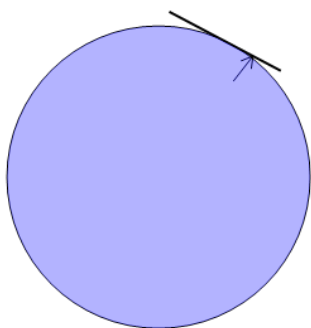

1

Is the part of the circle identified by the arrow an 'arc' (a portion of the outer edge of the circle)?

a	It is an arc
b	It is not an arc

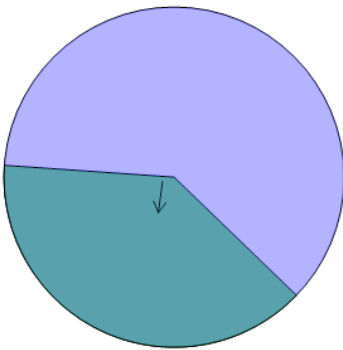

3

Is the part of the circle identified by the arrow a 'segment' (the shape between a chord and the outer edge of the circle)?

a	It is a segment
b	It is not a segment

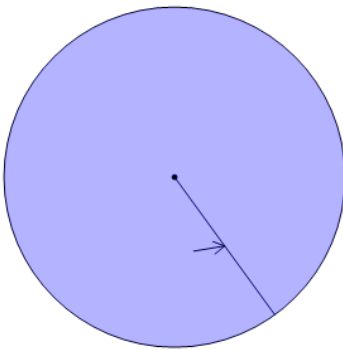

4

Is the part of the circle identified by the arrow a 'sector' (the pie shape between the center and two points on the edge)?

a	It is a sector
b	It is not a sector

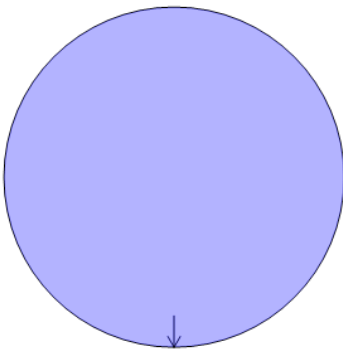

5

Is the part of the circle identified by the arrow a 'radius' (a line from the center to the edge)?

a	It is a radius
b	It is not a radius

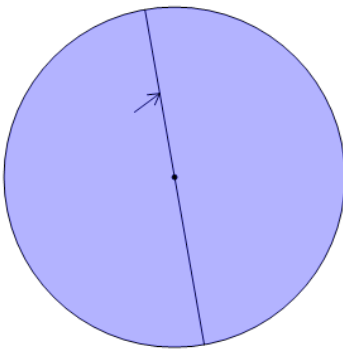

6

Is the part of the circle identified by the arrow a 'diameter' (a line from edge to edge that goes through the center)?

a	It is a diameter
b	It is not a diameter

7

Is the part of the circle identified by the arrow a 'sector' (the pie shape between the center and two points on the edge)?

a	It is a sector
b	It is not a sector
