

Math worksheet on 'Parts of a Circle - True/False (Level 1)'. Part of a broader unit on 'Geometry Basics - Practice'

Learn online: app.mobius.academy/math/units/geometry_basics_practice/

2

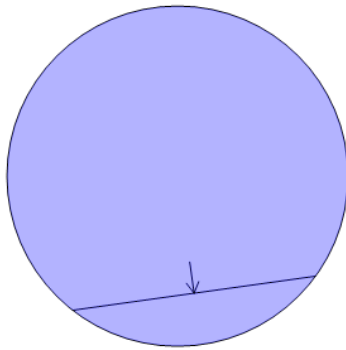

Is the part of the circle identified by the arrow a 'chord' (a line from edge to edge that does not go through the center)?

a It is a chord

b It is not a chord

1

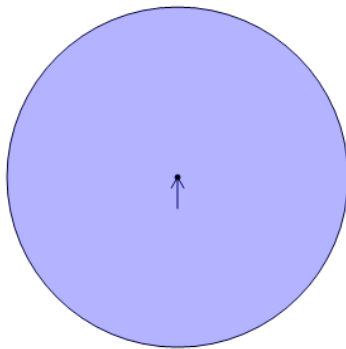

Is the part of the circle identified by the arrow a 'diameter' (a line from edge to edge that goes through the center)?

a It is a diameter

b It is not a diameter

3

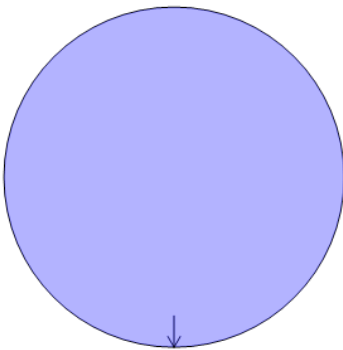

Is the part of the circle identified by the arrow a 'center' (the position in the middle that is the same distance from all points on the edge)?

a It is a center

b It is not a center

4

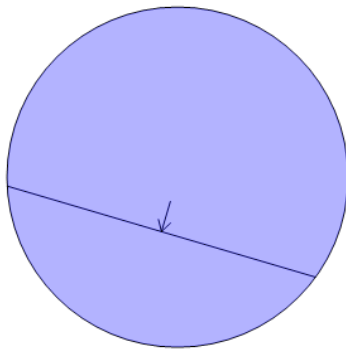

Is the part of the circle identified by the arrow a 'circumference' (the outer edge of the circle)?

a It is a circumference

b It is not a circumference

5

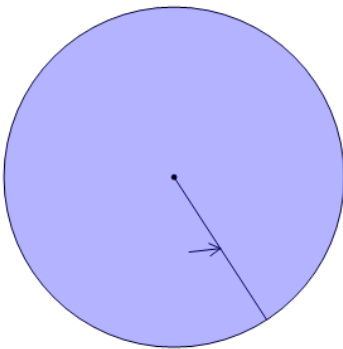

Is the part of the circle identified by the arrow a 'chord' (a line from edge to edge that does not go through the center)?

a It is a chord

b It is not a chord

6

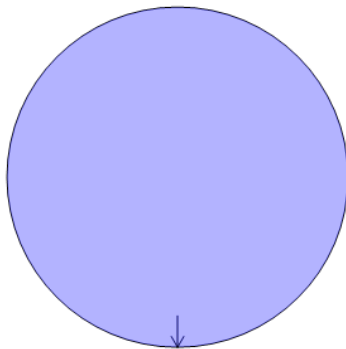

Is the part of the circle identified by the arrow a 'diameter' (a line from edge to edge that goes through the center)?

a It is a diameter

b It is not a diameter

7

Is the part of the circle identified by the arrow a 'circumference' (the outer edge of the circle)?

a It is a circumference

b It is not a circumference
