1

What graphed line shows this standard form line equation?

$$2x + 1y = 2$$

a | b

**2** What graphed line shows this standard form line equation?
$$-0.25x + 1y = 1$$

a

b

3

What graphed line shows this standard form line equation?

$$-0.6x + 3y = 9$$

a | b

4

What graphed line shows this standard form line equation?

$$6x + 2y = 6$$

a | b

5

What graphed line shows this standard form line equation?

$$1x + 2y = 3$$

a | b

6 What graphed line shows this standard form line equation?
$$0.25x + 1y = 0.25$$

a

b

7
What graphed line shows this standard form line equation?
$$-2x + 2y = 2$$

a | b
