1 What line has a slope that is PERPENDICULAR to this slope?

$m = -0.33$

2 What line has a slope that is PERPENDICULAR to this slope?

$m = 3$

3 What line has a slope that is PERPENDICULAR to this slope?

$m = -2$

4 What line has a slope that is PERPENDICULAR to this slope?

$m = 0.5$

5 What line has a slope that is PERPENDICULAR to this slope?

$m = 0.2$

6 What line has a slope that is PERPENDICULAR to this slope?

$m = -1$

7 What line has a slope that is PERPENDICULAR to this slope?

$m = 4$
