

Math worksheet on 'Slope - Find Perpendicular - Graph to Graph (Level 1)'. Part of a broader unit on 'Slopes and Perpendiculars - Intro'

Learn online:

[app.mobius.academy/math/units/line\\_equations\\_and\\_perpendiculars\\_intro/](http://app.mobius.academy/math/units/line_equations_and_perpendiculars_intro/)

**2**

What line has a slope that is PERPENDICULAR to the slope of the line on this graph?

**a**

**b**

**1**

What line has a slope that is PERPENDICULAR to the slope of the line on this graph?

**a**

**b**

**3**

What line has a slope that is PERPENDICULAR to the slope of the line on this graph?

**a**

**b**

**4**

What line has a slope that is PERPENDICULAR to the slope of the line on this graph?

**a**

**b**

**5**

What line has a slope that is PERPENDICULAR to the slope of the line on this graph?

**a**

**b**

**6**

What line has a slope that is PERPENDICULAR to the slope of the line on this graph?

**a**

**b**

**7**

What line has a slope that is PERPENDICULAR to the slope of the line on this graph?

**a**

**b**
