**2** What is the negative inverse of 1?

- |          |          |          |
|----------|----------|----------|
| <b>a</b> | <b>b</b> | <b>c</b> |
| -0.5     | 1        | -1       |

1

**3** What is the negative inverse of -4?

- |          |          |          |
|----------|----------|----------|
| <b>a</b> | <b>b</b> | <b>c</b> |
| 0.13     | 4        | -0.25    |

-4

**4** What is the negative inverse of -5?

- |          |          |          |
|----------|----------|----------|
| <b>a</b> | <b>b</b> | <b>c</b> |
| 5        | -0.2     | 0.2      |

-5

- |          |
|----------|
| <b>d</b> |
| 0.1      |

**5** What is the negative inverse of -2?

- |          |          |          |
|----------|----------|----------|
| <b>a</b> | <b>b</b> | <b>c</b> |
| 0.5      | -0.5     | 2        |

-2

**6** What is the negative inverse of 3?

- |          |          |          |
|----------|----------|----------|
| <b>a</b> | <b>b</b> | <b>c</b> |
| -0.17    | -3       | 0.33     |

3

- |          |
|----------|
| <b>d</b> |
| -0.33    |

**7** What is the negative inverse of -3?

- |          |          |          |
|----------|----------|----------|
| <b>a</b> | <b>b</b> | <b>c</b> |
| -0.33    | 0.17     | 0.33     |

-3

- |          |
|----------|
| <b>d</b> |
| 3        |
