**1** Find the definition of this measurement

## Median

- |          |   |
|----------|---|
| <b>a</b> | The distance between the highest and lowest of a set of numbers |
| <b>b</b> | The most commonly occurring number in a set of numbers          |
| <b>c</b> | The average of a set of numbers                                 |
| <b>d</b> | The middle number of a set of numbers when ranked in order      |

**2** Find the definition of this measurement

## Range

- a** The most commonly occurring number in a set of numbers
- b** The average of a set of numbers
- c** The middle number of a set of numbers when ranked in order
- d** The distance between the highest and lowest of a set of numbers

**3** Find the definition of this measurement

Mode

- |          |   |
|----------|---|
| <b>a</b> | The average of a set of numbers                                 |
| <b>b</b> | The distance between the highest and lowest of a set of numbers |
| <b>c</b> | The middle number of a set of numbers when ranked in order      |
| <b>d</b> | The most commonly occurring number in a set of numbers          |

**4** Find the definition of this measurement

Mean

- a** The average of a set of numbers
- b** The distance between the highest and lowest of a set of numbers
- c** The most commonly occurring number in a set of numbers
- d** The middle number of a set of numbers when ranked in order
