1 Find the definition of this measurement

Mean

a	The distance between the highest and lowest of a set of numbers
b	The most commonly occurring number in a set of numbers
c	The middle number of a set of numbers when ranked in order
d	The average of a set of numbers

2 Find the definition of this measurement

Range

a	The middle number of a set of numbers when ranked in order
b	The average of a set of numbers
c	The distance between the highest and lowest of a set of numbers
d	The most commonly occurring number in a set of numbers

3 Find the definition of this measurement

Median

a	The distance between the highest and lowest of a set of numbers
b	The middle number of a set of numbers when ranked in order
c	The most commonly occurring number in a set of numbers
d	The average of a set of numbers

4 Find the definition of this measurement

Mode

a	The average of a set of numbers
b	The most commonly occurring number in a set of numbers
c	The middle number of a set of numbers when ranked in order
d	The distance between the highest and lowest of a set of numbers
