1 Choose the right description of the triangle based on its angles

a One angle is more than 90°

b All angles are less than 90°

c One angle equal to 90°

2 Choose the right description of the triangle based on its angles

a All angles are less than 90°

b One angle equal to 90°

c One angle is more than 90°

3 Choose the right description of the triangle based on its angles

a One angle is more than 90°

b All angles are less than 90°

c One angle equal to 90°

4 Choose the right description of the triangle based on its angles

a One angle equal to 90°

b All angles are less than 90°

c One angle is more than 90°

5 Choose the right description of the triangle based on its angles

a All angles are less than 90°

b One angle is more than 90°

c One angle equal to 90°

6 Choose the right description of the triangle based on its angles

a One angle equal to 90°

b One angle is more than 90°

c All angles are less than 90°

7 Choose the right description of the triangle based on its angles

a One angle equal to 90°

b One angle is more than 90°

c All angles are less than 90°

8 Choose the right description of the triangle based on its angles

a One angle equal to 90°

b All angles are less than 90°

c One angle is more than 90°
