**1** Choose the right description of the triangle based on its angles

**1** Choose the right description of the triangle based on its angles

- a** All angles are less than  $90^\circ$
- b** One angle equal to  $90^\circ$
- c** One angle is more than  $90^\circ$

**2** Choose the right description of the triangle based on its angles

**3** Choose the right description of the triangle based on its angles

- a** One angle is more than  $90^\circ$
- b** One angle equal to  $90^\circ$
- c** All angles are less than  $90^\circ$

**4** Choose the right description of the triangle based on its angles

**5** Choose the right description of the triangle based on its angles

- a** One angle equal to  $90^\circ$
- b** All angles are less than  $90^\circ$
- c** One angle is more than  $90^\circ$

**6** Choose the right description of the triangle based on its angles

**7** Choose the right description of the triangle based on its angles

- a** All angles are less than  $90^\circ$
- b** One angle equal to  $90^\circ$
- c** One angle is more than  $90^\circ$

- a** All angles are less than  $90^\circ$
- b** One angle equal to  $90^\circ$
- c** One angle is more than  $90^\circ$

- a** One angle is more than  $90^\circ$
- b** All angles are less than  $90^\circ$
- c** One angle equal to  $90^\circ$

- a** One angle equal to  $90^\circ$
- b** One angle is more than  $90^\circ$
- c** All angles are less than  $90^\circ$
