mobius

Math worksheet on *'Volume of a Rectangular Prism - Calculate Side from Volume and Sides (Level 1)'*. Part of a broader unit on *'Geometry - Volume Logic with 3D Shapes - Intro'*

Learn online: app.mobius.academy/math/units/geometry_volume_logic_intro/

1 What is the length of the missing side of this Rectangular Prism?

2 2
V=12

a	b	c
6	3	8
d	**e**	**f**
2	5	1

2 What is the length of the missing side of this Rectangular Prism?

5   3
V=60

a	b	c
5	4	11
d	**e**	**f**
9	1	3

3 What is the length of the missing side of this Rectangular Prism?

4   3
V=48

a	b	c
3	5	4
d	**e**	**f**
9	8	6

4 What is the length of the missing side of this Rectangular Prism?

4   3
V=24

a	b	c
5	4	2
d	**e**	**f**
7	6	8

5 What is the length of the missing side of this Rectangular Prism?

2   5
V=20

a	b	c
2	5	1
d	**e**	**f**
7	3	4

6 What is the length of the missing side of this Rectangular Prism?

5   4
V=80

a	b	c
4	10	3
d	**e**	**f**
1	2	5

7 What is the length of the missing side of this Rectangular Prism?

2   5
V=50

a	b	c
4	3	5
d	**e**	**f**
10	1	13
